REMUL

Professional flail mower

Technical features

Frame	Domexd steel, bent and welded by robot.
Dimensions	105 cm working width.
Drive	Electric motor.
Transmission	2 belt transmission.
Rotor	Horizontal rotor with interchangeable Y-knives.
	3000 rpm.
Settings	Adjustable cutting height in 6 positions from 3 to 8 cm

The flail mower has a horizontal rotor with Y-knives driven by an electric motor and 2-belt transmission. It works efficiently with high grass. Cutting height can be adjusted from 3 to 8 cm. It can be used parks but is specifically designed for orchards, vineyards, gardens, and open fields.
